# Welcome Message

Hey there,

First off, Congratulations! You've made it this far into the journey, and that is praiseworthy in itself.

We know how intimidating and stressful this experience can be for you: leaving behind a set atmosphere you're comfortable with in a place you can call 'home', and heading into an unknown land with different kinds of people, a different set of cultures, and a whole lot of 'what-ifs'. We've been there too - and we've also been as stressed out as you probably are. Though, as they say: You live and you learn, and with each set of students who've come to Warwick from India, this guide has become more comprehensive.

The first couple of days on campus - for most students - will be difficult. Perhaps the best way to cope with the homesickness and anxiety that may come your way is to distract your mind. There are a plethora of societies and clubs on campus, and they will in no doubt keep you occupied while you're here.

It's okay to be scared & uncomfortable about this new environment you find yourself in. No one of us is completely fearless. However, it is important that you act regardless of that fear: meet as many people as you can and keep making friends - you never know when they will come in handy.

Rest assured, we always have your back. INSA is a society made for every Indian on campus - no matter where they were born or what language they speak. If there's ever a problem, we're just a call (or email) away. We will also keep you occupied through the year with a number of social, careers-related and academic events. We're a society that doesn't just think out of the box: we think as if there isn't even a box to begin with.

In conclusion, Captain Hindsight's a wonderful friend - just that he isn't there when you need him the most. We're here to fill in that gap, and tell you all one needs to know about moving into Warwick - derived from our own experiences. So here's to a phenomenal three (or four, or five...) years at Warwick!

Cheerio,  
The INSA Team.

# Tips Before Arriving UK

## DOCUMENTS & IMMIGRATION

Important documents to carry (we advice to keep copies on google drive as well) :

- Passport (with temporary UK VISA)
- Flight Tickets
- University Offer letter
- Scholarship Letter (if any)
- CAS Letter
- Cash (including 1 GBP coins for luggage trolley) / Forex + Sim
- Accommodation contract copy (proof of stay)
- University Fee Payment Confirmation
- Reports of Immunisation (Measles)
- VISA Decision Successful Print-out (received from VFS)
- At least 1 attested ID proof
- All educational transcripts & certificates
- TB test
- IELTS TRF report (results)
- Bank statement proof (that was provided for VISA application)
- Resume print-out
- Statement of purpose print-out
- Medications prescription (if carrying any)
- Passport and VISA xerox copies

## TRANSPORT & ACCOMMODATION TIPS

### Preferable Airport : ✈️

Most Warwick students choose to land at either London Heathrow (LHR) or Birmingham International Airport (BHX). Flight options to BHX are less flexible, however it is closer to campus - and thus cheaper to travel from. However, flights to BHX themselves are quite expensive! It depends on your preference. A cab from BHX to Campus is only a 25 - 30 min. ride as opposed to LHR which is about 2 - 2.5 hrs away.

### Preferable Mode of Transport from Airports to Campus :

The University of Warwick provides free airport pickups from LHR during fresher's week. More information about the same can be found on their website.

Book your alternative mode of transport from either airport in advance. These include private taxis, uber taxis, trains or buses.

Here are some private cab services that we at INSA use because they are sometimes cheaper than ubers : 🚗

Akmal Uncle: +44 7973 868889

Cedric: +44 7851 356994

### Nearby Hotels that can be booked in advance :

If you are travelling with family or arriving before accommodation contract begins, and wish to shop around in preparation for moving in:

- Radcliffe / Scarman : These are the closest hotels that are technically ON campus, right behind the Warwick Business School (WBS) building (5 minute walk from central campus). They need to be booked well in advance so make sure you book them (if needed) as soon as your flights are booked.
- Hotels in Coventry : Ibis (2 star), Britannia Coventry Hotel City Centre (3 star), Ramada Hotel and Suites (4 star), and Holiday Inn (4 star) are good hotels located at Coventry which are around 10-20 minutes drive away from the central campus of Warwick.
- Hotels in Leamington Spa : Days in by Wyndham, The Grove Hotel, Ramada

Make sure to choose a hotel close to the city centre of Coventry or Leamington if you have a lot of shopping to do!

### Ordering Essentials :

If you prefer buying your essentials to settle in your accommodation room comfortably in advance, then remember to buy them online from Amazon (you can look for your exact room address on your accommodation contract or Warwick Dashboard) or Unikit Out. [Unikit Out](#) delivers your order to your room before you reach there, so you don't have to worry about collecting it. You can also get 10% OFF by using the code WARWICK10.

## BANK ACCOUNT & CARRYING CASH

### Cash :

It is suggested to carry some cash for emergencies, however, most services in the UK are contactless so not a very high amount is required to be carried.

*Pro Tip: Carry coins such as 1 or 2 GBP because trolleys at airports and supermarkets may require you to insert a coin to be able to use them.*

### Forex Cards :

Most students in the UK initially use a forex card for all cashless and online payments until they are able to open a UK bank account. Forex cards are multi-currency cards that can be brought from India from banks such as HDFC, ICICI, IndusInd, Axis, etc.

It's best to get a forex card from your primary bank as they might offer you personalised discounts. SBI Forex cards have the lowest rates. Through a forex card, even in the future, if you want to get money from India, you can ask them to just deposit it in your forex card and you will have it with you in minutes.

International debit cards will work on shopping but it may deduct some conversion fee depending on your bank policies.

Forex cards are only required for the initial days after which you can ask your bank to cancel it once you get a UK bank account, however many do continue to keep it in case of emergency.

Many services and online platforms DO NOT ACCEPT forex cards, so it's important for you to book an appointment in a UK Bank to open an account as soon as you come to the UK.

## **Bank Accounts :**

It is important to open a UK bank account to ease bank-to-bank transfers and online payments with no transfer charges. Opening a bank account once you arrive in the UK should be of utmost priority.

Most Warwick students prefer Barclays, HSBC, or Lloyds and the best digital/ challenger banks are Starling, Revolut, Monzo and Chase bank. It is suggested to open a normal and digital bank account.

Every bank also has its own mobile app. Bank accounts can also be opened online but they are not suggested as customers who take a physical appointment are prioritised and it is best to open normal bank account as soon as possible.

### **How to Open a UK Bank Account:**

Firstly, it is essential to go through the mentioned banks' websites and lookout for different types of bank accounts available to understand which suits you the best. Then, you can either book an appointment with the bank or just give a call to the nearest branch and they will advise you on how to get it done. In order to open a bank account, you will be needing the following documents :

- Your Passport and BRP ( get BRP done at your University )
- Student Status Letter (You can download it from your Warwick Enrolment Dashboard, after finishing all administrative tasks at university after arriving such as getting your BRP and checking into your accommodation.)
- Your Warwick Student ID Card.

Once the bank account is opened, you will receive your online banking credentials along with your debit card through courier.

## Sending, Receiving and Withdrawing Money :

**Sending Money:** You can use Remitly, WorldRemit, Smallworld to send money back home as they charge the lowest fees and provide best rates.

*Note: For transactions above 6000 GBP Smallworld provides the best rates and for transactions below that Remitly provides the best rates.*

**Receiving Money:** You can use Wise or Instarem for receiving money from India as they provide the best exchange rates. Use Skrill to instantly receive money in your account ( use only if you need money urgently as costs are a bit higher ).

**Withdrawing Money:** You can use an ATM locator app to find free cash machines near you. The app even tells you which machines have transaction fees and which ones are fee free etc.

## **SIM CARD & NETWORK**

### Sim Card & Network Providers :

Preferred or Most common network operators among Warwick students include Lebara, Lyca, SMARTY, Giffgaff, and Voxi.

You can get a SIM card at any general store like WH Smith, Tesco, etc. It will also be easily available at the airport or nearest station, but many students get it from the Post Office (inside Rootes grocery store on University central campus) because it is available for free there. Indian Airports charge extra.

Some VFS offices also give students a free Lebara SIM during their Visa Appointment. You may get free sim cards during freshers week (welcome week events) but plans may vary.

## BOOKING IMPORTANT SLOTS BEFORE COMING TO THE UK

### “Right to study check” (Collecting BRP):

You will receive an email from the university asking you to book a slot (date and time) for collecting your BRP. It is important that you book it in time so that you can get the date and time that is suitable for you when you are in the UK.

*Note: It's essential that you collect your BRP within the first week of university i.e. welcome week. More information about the BRP can be found on Warwick's immigration and compliance [website](#).*

### Accommodation key collection :

You will also receive a mail from university asking you to book the date and time you will be available to collect your accommodation room keys and your Warwick Student ID. It is essential to keep an eye for such mails.

### Booking / Buying tickets for Fresher's Week & Party Culture:

There is a lot going on during fresher's week- from the societies fair to the multiple club nights on and off campus. The university's daytime events are generally free, but you'll want to book slots for them (wherever provided) as some can reach maximum capacity.

The club nights are paid. There's an event every night during freshers week at the Copper Rooms (the on-campus club), including the ice-breaker party, loud and proud (Warwick's LGBTQ+ club night), foam party, & bollywood night. Tickets for these go on sale beforehand, and it would be good to grab tickets for the events you want to attend before coming to uni.

There is a particular party (Fatsoma) that gets marketed in various group chats, you might even get messaged personally asking if you'd like to join a group to get the group ticket. DO NOT GET IT! It's a scam event and you'll only be wasting your money.

*Tip: Don't splurge on the fresher's week pass or anything because generally, people don't go to the copper rooms every night. You might wanna check out some off-campus clubs/parties as well. Also, you might get the fresher's flu.*

We suggest you follow the 'warwickfreshers24' page on instagram - and no other, as they are usually the organisers of the major party events in freshers week. Be careful of a scam called 'Fatsoma' - we've had freshers report really horrible experiences with them in the past.

Make sure you buy freshers week tickets on the SU website or where the freshers' page tells you to do so well in advance, as they get sold out quickly.

Of course, there is no shortage of Clubs in Leamington or Coventry: Kasbah, Smack, Neon, Altoria - all well-liked by students. Societies like WBSS, WBDS and others run special club nights too, usually in Leamington.

The university also has a circling culture, which usually takes place on wednesdays - with some wednesdays being dedicated 'POP' days. This means that once you circle with your society, you head into the Copper Rooms on campus for a club night. Circling, by the way, is when you sit in a circle with a society (surprise!) and have to play drinking games - you can also just drink water.

Be careful of your drink being spiked when you're not around - that does happen a lot.

# After Reaching the UK

## IMPORTANT COLLECTIONS

### Collection of Accommodation Key:

The first and foremost thing that needs to be done the moment you arrive on campus is to collect your Warwick student ID and accommodation room key from the address given to you in advance on mail. Once you get the key, you can go to your room and keep your luggage safely.

### Collection of BRP:

The next most important step is to collect your Biometric Residence Permit from the Rootes Learning Grid, as per your booked appointment. Note - It is essential to first collect your Warwick Student ID as you will not get your BRP without showing the ID. You have to carry your passport and student ID to get the BRP.

## OTHER IMPORTANT TASKS

### NHS Registration and Completion of Enrolment Dashboard:

Once you arrive on campus, you can complete your online NHS Registration ([NHS Guide](#)) which will give you access to the university health centre whenever needed. Moreover, it is also essential to complete all the tasks on your enrolment dashboard after collecting your BRP. (you are asked to upload a picture of your BRP on the dashboard).

## Buying Essentials and Settling In :

Meanwhile, you can also start buying essentials from nearby stores such as Tesco and Aldi ( at Cannon Park which is a 15-30 minute walk from campus ) in order to settle in comfortably.

There will be plenty of help available for you on campus during freshers week. You can also visit your respective accommodation's residential hub if you have any doubts with your room or need help connecting to the campus Wi-Fi. 📶

*Tip: The eduroam wifi log in is your Warwick student ID and password. Though it might take a few hours to kick in.*

Your flatmates are where you begin with. Start making friends!

*Picture: Bluebell student accommodation on campus*

*Picture 2: Entry for student study grid and coffee shop. Upstairs there is Fusion Bar.*

# Life at Warwick

## FREQUENTLY ASKED QUESTIONS

### How to manage food, groceries and other essentials?

Lidl, Aldi & Asda are overall cheapest supermarkets. More expensive are Morrisons, M&S, Waitrose & Sainsbury's.

There's an Aldi at Cannon Park which comes in quite handy - but most first-years choose to order as a flat from TESCO, which means they can split the delivery cost (usually 3 pounds) and meet the minimum basket value (usually 50 pounds). Of course, if that isn't possible, the shop is only 15 minutes away by walk from the centre of campus, and just down the road from Claycroft and the WMG.

There is also Rootes Grocery Store (more expensive than Tesco) on central campus, to meet immediate needs. It also has a "Hot Food" Section and a variety of Trisha's Indian meals like Biryani, Chole, etc.

There are several cafes, food trucks/stalls & restaurants on campus. Detailed info. of these can be found on Warwick's [website](#).

### What are the transportation services to go off campus?

You'll find yourself heading to Leamington quite often - after all, the four most popular clubs, other bars and restaurants are there. There's the 11 electric and U1/U2 that head down to Leamington and the 11 electric and 12X that head back up to Coventry.

If you're travelling to London by train, use Trainline to check whether tickets are cheaper from Leamington or Coventry Station - there are usually really cheap bargains that can be found.

There's always a number of taxis parked at the bus stop, & you can call your Uber or Bolt (usually cheaper) to your accom itself.

Overall, the transport system is usually well-organised - barring the occasional cancellations.

### **What's the healthcare system on campus like?**

There's a health centre on campus, right opposite the Bluebell 4 carpark and down the road from the Oculus-Whitefield junction. You will need to scan the barcode placed outside and register yourself, post which you can walk in any working day of the week to meet a GP. Alternatively you can also take an appointment over call.

Note that there aren't Dental facilities at the health centre, you will have to head over to Canley Dental Surgery or J H Dental Clinic nearby instead. Dental procedures are quite expensive in the UK - so try to restrict any procedures to India instead.

### **What is the Laundry System like?**

Some on-campus accommodations like Bluebell have washing machine services (laundrette) within the building that cost around 5.5 pounds for a wash-dry cycle of an hour and a half. Others, like Rootes, have designated satellite buildings offering the same facility. Machines are usually free in the mornings and get very crowded in the evenings - especially on Wednesday and the weekend, which is something to bear in mind.

### **What is the parcel / courier system?**

While ordering any parcel (either from India / other online shopping sites), it's essential you enter in your Name and Warwick student ID clearly with your accommodation room exact address. The parcels are collected by your respective accommodation's Post Room on behalf of you, after which you can visit the post room, show your Warwick Student ID Card and claim your parcel at your own convenience. Details about each accommodation's post room are given on Warwick's [website](#).

### **How to deal with homesickness in the initial days?**

Let's face it - some of us are going to be homesick, and the rest of us are going to revel in our new-found freedom. What's important is to be conscious of that new-found freedom - even more so since we're in an unfamiliar environment. If you're homesick in the first couple of days, spend your evenings in the games hub at the Junction Buildings or try taster sessions for any society or sports club of your choice - that should be enough to distract your mind before classes begin.

### **Hobbies you can continue doing on campus**

The societies and sports clubs are the life of the campus: nothing exists without them. Check out the societies and sports fair, try out as many taster sessions as you can, and join all the societies you want to (list available on SU site). The federation fee is expensive, but worth it in the long run. The sports and wellness hub is brand-new and well-equipped - you might want to check it out as well!

*To join INSA Warwick, stay tuned to our instagram page :) [@warwickinsa](#)*

### **Other nearby entertainments off campus**

Clubbing. That's all that happens every other night. Nah, we're just joking. There is a lot to do off campus: hiking trails like the one to Chesterton Windmill, the occasional day trip to London or Birmingham to name a few. Birmingham airport is quite close by, and a quick hop to Malta isn't too expensive for a weekend trip either! Of course, there is no shortage of Clubs in Leamington or Coventry: Kasbah, Smack, Neon, Altoria - all well-liked by students. Although rumour is that our beloved Smack is closing down to be turned into student accommodation :(

### **Cultural Differences to expect**

**Fewer staff everywhere, independence is more encouraged :**

While there is enough staff workers and helpers available for every task in India, you can expect to carry out certain tasks all by yourself in the UK such as more self-checkout systems in grocery stores than main billing counters, self-service kiosks to buy tickets for transportation services (if buying physically), self-checkout systems at the library for borrowing and returning books (at University Library as well) etc.

**Digital payments :**

There is widespread use of card payments as compared to cash payments ("Tap and pay" culture) at almost all the shops, restaurants and transportation services in UK. It is recommended to not carry a lot of cash, and rather open a bank account ASAP!

**Closing hours of shops, restaurants, banks, medical stores :**

The closing hours of public places and services are quite early in the UK. You can expect most miscellaneous stores (including banks and the medical store on campus) to close approximately by 5 pm, and restaurant kitchens to close by 9 pm unless otherwise stated.

### Weather differences :

It can rain any time and day of the year in the UK, so it is highly recommended to own a puffer jacket (more preferred over umbrellas due to windy rains). It is suggested to buy the puffer jacket from the UK as it will be designed to suit the weather perfectly. Moreover, temperature in winter (November to February) ranges between -2 to 10 degree celsius , and between 10 to 17 degree celsius in the rest of the months except summer where temperatures have recently been going up to 25 degrees occasionally. Sunsets can be expected as early as 4.30 pm in winters and as late as 8 pm in summers.

### Student discounts :

There are a lot of student discounts available on various purchases such as Fashion, Technology, Lifestyle and Food & Drink that are worth checking out. Download the Unidays App to know more about such discounts. More about student discounts are mentioned in the below section (“Loyalty cards and membership accounts”).

## ESSENTIAL APPS TO DOWNLOAD IN THE UK

*Note: Remember to change your App store / Play store location to the UK to be able to download all the applications.*

### University Apps:

#### MyWarwick App:

It's the most important app that shows your scheduled classes, events and activities on your phone. It shows your personal info. like your Warwick Email, student ID and course. You can also find important helpline numbers or other news about Warwick. It also has an interactive map of the campus to help you find your classes.

Exact Term dates for the year can be viewed on Warwick's [website](#).

## Travel Applications

- **Uber & Bolt** : are the most used cab services in the UK (Bolt is known to be slightly cheaper)
- **[Trainline](#)** : used for booking trains. You can buy a **[3\\_year railcard](#)**- that allows you to claim discounts on each train ticket that you buy. It saves A LOT of money. Highly recommend that you buy it if you plan on travelling around the UK. Even if you take 1 trip to London each term you will find yourself saving money.
- **[National Express](#)** or **[Megabus](#)** for inter-city bus travels (according to region, certain student passes are available)
- **Google Maps** : is a must to check routes, how to reach using public transports, the timing for buses and trains etc.
- **Stagecoach** : It provides a better estimate of when the next bus is going to arrive and if you decide to move to Leamington after your first year, your bus pass will likely be on this same app.

## Food & Groceries Applications:

- **Uber Eats, Just Eat and Deliveroo** are basically the Zomato and Swiggy of the UK. You can order food from these websites, and it will be delivered to your accommodation building.
- **Mysupermarketcompare** and **latestdealsuk** can be used to compare grocery prices.
- **Individual Grocery apps** for the mentioned supermarkets can be downloaded and ordered online (Tesco).

## Banking Applications

- Many students opt to use online banking apps because of better interest rates, offers, user interface, etc. These bank accounts are usually cashless and easy to use for day-to-day purposes.
- Students usually deposit cash into their UK bank account then slowly transfer to accounts like Chase, Monzo & Revolut depending on their preference of offers, eg. Chase offers 1% Cash Back on all your expenses for 1 year. It is free to open these accounts and usually don't take very long since it's done online.
- You can also download the application of your respective bank account to keep an eye on your transactions regularly.

## Top Cash Back Applications

- **TopCashback** ( classic membership is free ) is one of the top rated cashback websites.
- **Quidco** is another leading cashback website.
- **Groupon, LivingSocial** is the best site to find daily deals.
- **Checkoutsmart** app shows you discounts and rewards on groceries.
- **Vouchercloud** app for deals and discount offers.
- **Foursquare** app for dining out discounts.

## Miscellaneous Applications

- **UNiDAYS** tells you about different places, brands and categories around the country where you can get many student discounts using your student ID card only.
- **Studentbeans** for student discount from multiple stores.
- **Netflix & Prime Video** for Entertainment. (Indian Prime Video doesn't work in the UK. So, you can get free 6 month trial for Amazon Prime UK from UNiDAYS)
- **Money Manager** to monitor your expenses. It's a really good app and helps you find out how much you have spent on entertainment, on food, on living, etc.

- People use SplitWise for splitting group expenses, and keeping a record of them (but it has become paid recently so I suggest Tricount instead, or literally anything else)
- Odeon or Vue for booking movie tickets (Odeon in Coventry, Vue in Leamington Spa, which are the easiest to go to from campus)
- Gumtree, Vinted, Facebook to buy second-hand things. (Warwick does a resale fair at the piazza (central campus) in the first few weeks of uni)

## LOYALTY CARDS & MEMBERSHIP ACCOUNTS:

**Tesco Club Card** is free to obtain. For every 1GBP spent, you will get 1 point, and for every 150 points, you get a 1.5 GBP discount.

An **Oyster Card** is always beneficial if you visit London frequently. Oyster Cards are only valid on public transports in London.

Train tickets are quite pricey so buying a **Rail Card** is useful. It gives you 1/3 discount on train tickets. Railcard costs 70GBP for 3 years. You can get a 4 year railcard worth 100/120 GBP free when you open a student account with Santander bank but that bank account has a monthly maintenance fee. You can also wait till Black Friday Discount on the rail card.

**Amazon Prime** bought in India won't work in the UK. But you can get free UK Prime if you register with your university student mail.

**NUS Extra Card** discount card for Students for just 12 GBP to save upto 500 GBP. **NUS / Your Warwick ID Card** will give you student discounts in many places like Boots.

**Taste Card** for 34.99 GBP offers upto 60% entertainment, upto 50% off attractions, 2 for 1 meals and dining out at 50% off all offers available at select stores and restaurants only.

## Personal Tutor

- It is suggested to keep your respective Personal Tutor and department contact details handy as they will be your primary contact with the teaching staff at Warwick. These details can be found on your Warwick Moodle Page or WBS page (if you are a WBS student).

## Contact Us!!

- Email ID: insawarwick@gmail.com
- Instagram: @warwickinsa

## OUR OTHER GUIDES:

Here are links to some other guides we have formed to help you out:

**Incoming Students Speadsheet (INSA Warwick):**

[https://docs.google.com/spreadsheets/d/1e\\_Z66Ft-m4abGuf\\_6VAqV1HHJgDvalqhvnrOkHonc4/edit?usp=sharing](https://docs.google.com/spreadsheets/d/1e_Z66Ft-m4abGuf_6VAqV1HHJgDvalqhvnrOkHonc4/edit?usp=sharing)

This document has some guidance in terms of a shopping list, medicines to carry, on campus accommodations, documents to carry, etc.

Phew! Well, that's it from us. Remember, we're always here for you, and we've always got your back. Looking forward to seeing you soon - do pop by our stall during Welcome Week!
